V1.0

DIGITAL EXPORT PRICE LIST

Validity : This price list is valid for a period of 12 months starting from 01-01-2026.

PRICING INFO

Prices : Unless stated otherwise, all prices are list prices in Euro excl. V.A.T.
Prices are subject to change without notice or obligation.

Discount : The following discount structure is applicable to the list prices:

Purchase order list in Euro (one shipment, one destination)	Discount	Multiplier
Euro < 5.000	20 %	0,80 x
Euro 5.000 - 10.000	24 %	0,76 x
Euro 10.001 - 20.000	26 %	0,74 x
Euro > 20.000	28 %	0,72 x

Small order fee : For orders less than list Euro 300.00, a surcharge of net Euro 50.00 will be added to the invoice for order handling and/or administration fee.

Labelling : In case each product requires special location and/or reference labelling, an additional price of net Euro 2.50 per label will be applicable.

Sealing : In case each product (including pre-fitted controls) requires individual sealing, an additional price of net Euro 14.00 per sealed product will be applicable.

Controls : Additional cost will be applicable in case free-issue third party controls have to be fitted, wired and/or calibrated.
The amount depends on the manufacturer and type of controls. An order can be confirmed only after receipt of all final controls details.

ORDERING INFO

Order method : By complete type designation (7-digits) + model or dimension (W x H).

Handing : Right or Left looking in direction of air flow - right = standard.

Ordering information : [Type] - [Model] - or [Type] - [Width] x [Height].
See pages for ordering information.

Dimensions : All dimensions are in mm.

Images : Shown product photos/images are for illustration purposes only and no rights can be claimed upon these.

Order changes : After receipt of written purchase order, any changes might result in extra cost.

DELIVERY INFO

- Delivery** : FCA Purmerend (Incoterms 2020) including normal packing for truck or sea shipment.
All products are shipped at the expense and risk of the client.
- Delivery time** : All items in this price list with prices printed in bold can be supplied ex. stock.
For non stock items please contact our sales office. Final delivery time will be confirmed after receipt of confirmed purchase order including all necessary production details.
- Storage at site** : The delivered materials need to be stored at site at a dry and dust-free environment.
- Delayed delivery** : In case client requests to delay the delivery, the following terms will be applicable:
- Invoicing will take place the moment the products will be ready and will be stored.
 - Storage is at risk of the buyer.
 - Net Euro 15.00 per pallet/week storage cost will be charged.
 - Partial shipments will not be possible any more after delayed deliveries.
- Returns** : Returns of stock items can only be accepted at our warehouse after written confirmation in advance and at the valid return conditions, being 50% of the net value excl. VAT. Non stock products can not be returned.

PAYMENT INFO

- Payment** : 100% advance or at sight by irrevocable letter of credit unless agreed otherwise.
- Warranty** : 12 months from date of supply.
- General terms** : All purchase orders are subject to the General Terms and Conditions of Swegon Nederland B.V. (see our website).
All previous price lists will expire per 31-12-2025.

- Address details** : Barcol-Air B.V.
Cantekoogweg 10-12
1442 LG Purmerend - The Netherlands

VAV & CAV TERMINALS

**NA****CIRCULAR VAV TERMINALS | SINGLE WALL**

NAOB	VAV terminal, circular, single wall	1
NAOG	VAV terminal, circular, single wall, with rectangular outlet and integral hot water reheat coil	3
NAON	VAV terminal, circular, single wall, with rectangular outlet and provision for integral electric reheat coil	6

**NB****CIRCULAR VAV TERMINALS | DOUBLE WALL**

NBOB	VAV terminal, circular, double wall	8
NBOE	VAV terminal, circular, double wall, circular outlet, with integrated sound attenuator	10
NBOG	VAV terminal, circular, double wall, with rectangular outlet and integral hot water reheat coil	12
NBOH	VAV terminal, circular, double wall, with rectangular outlet and provision for integral electric reheat coil	15

**NK****RECTANGULAR VAV TERMINALS | SINGLE WALL**

NKOA	VAV terminal, rectangular, single wall	17
NKOF	VAV terminal, rectangular, single wall, with integrated sound attenuator	24

**NL****RECTANGULAR VAV TERMINALS | DOUBLE WALL**

NLOA	VAV terminal, rectangular, double wall	35
NLOF	VAV terminal, rectangular, double wall, with integrated sound attenuator	42

**NM****RECTANGULAR CAV TERMINALS | SINGLE WALL**

NMOA	CAV terminal, rectangular, single wall	53
------	--	----

**NN****RECTANGULAR CAV TERMINALS | DOUBLE WALL**

NNOA	CAV terminal, rectangular, double wall	57
------	--	----

**NP****RECTANGULAR VAV TERMINALS | BY-PASS VERSION**

NPOA	By-pass VAV terminal, rectangular, with rectangular outlet	61
NPON	By-pass VAV terminal, rectangular, with rectangular outlet and provision for integral electric reheat coil	63

**NR****CIRCULAR CAV TERMINALS | SINGLE WALL**

NROB	CAV terminal, circular, single wall	65
NROG	CAV terminal, circular, single wall, with rectangular outlet and integral hot water reheat coil	68
NRON	CAV terminal, circular, single wall, with rectangular outlet and provision for integral electric reheat coil	71

**NS****RECTANGULAR VAV TERMINALS | WITH INTEGRATED SOUND ATTENUATOR**

NSOD	VAV terminal, rectangular, with rectangular outlet	73
NSOK	VAV terminal, rectangular, with rectangular outlet and integral hot water reheat coil	75
NSOR	VAV terminal, rectangular, with rectangular outlet and provision for integral electric reheat coil	78

**NT****CIRCULAR CAV TERMINALS | DOUBLE WALL**

NTOB	CAV terminal, circular, double wall	80
NTOG	CAV terminal, circular, double wall, with rectangular outlet and integral hot water reheat coil	82
NTON	CAV terminal, circular, double wall, with rectangular outlet and provision for integral electric reheat coil	85

**NV****VAV INDUCTION TERMINALS**

NVOA	VAV induction terminal, with rectangular outlet	87
NVOG	VAV induction terminal, with rectangular outlet and integral hot water reheat coil	89
NVON	VAV induction terminal, with rectangular outlet and provision for integral electric reheat coil	92

**NZ****DUAL DUCT MIXING VAV TERMINALS**

NZOAOOB	Dual duct mixing VAV terminal, with rectangular outlet and Flo-Cross in the cold and warm inlet spigot	94
NZOAOOG	Dual duct mixing VAV terminal, with rectangular outlet and Flo-Cross in the cold and warm inlet spigot and the outlet spigot	96
NZODOOB	Dual duct mixing VAV terminal, with rectangular outlet with integral sound attenuator and Flo-Cross in the cold and warm inlet spigot	98
NZODOOG	Dual duct mixing VAV terminal, with rectangular outlet with integral sound attenuator and Flo-Cross in the cold and warm inlet spigot and the outlet spigot	100

AIR FLOW MEASURING AND CONTROL STATIONS

AEP

CIRCULAR | AIR FLOW MEASURING STATIONS

AEPO	Air flow measuring station, circular, length 50 mm	102
AEPOL350	Air flow measuring station, circular, length 350 mm	104
AEPG	Air flow measuring station, circular, length 350 mm, with air straightener	106

AER

RECTANGULAR | AIR FLOW MEASURING STATIONS

AERO	Air flow measuring station, rectangular	108
AERG	Air flow measuring station, rectangular, with air straightener	114

SOUND ATTENUATORS

ABR | ABS

CIRCULAR

ABR1	Sound attenuator, circular, without core, absorption insulation 100 mm	120
ABR5	Sound attenuator, circular, without core, absorption insulation 50 mm	124
ABS	Sound attenuator, circular, with core, absorption insulation 100 mm	127

ABW

RECTANGULAR

ABW1-500	Sound attenuator, rectangular, splitter width 100 mm, length 500 mm	130
ABW1-1000	Sound attenuator, rectangular, splitter width 100 mm, length 1000 mm	141
ABW1-1500	Sound attenuator, rectangular splitter width 100 mm, length 1500 mm	152
ABW2-500	Sound attenuator, rectangular, splitter width 200 mm, length 500 mm	163
ABW2-1000	Sound attenuator, rectangular, splitter width 200 mm, length 1000 mm	167
ABW2-1500	Sound attenuator, rectangular, splitter width 200 mm, length 1500 mm	171

WALL & SWIRL DIFFUSERS

GHA

WALL DIFFUSERS | SUPPLY & RETURN

GHAO	Wall diffuser, high induction, double deflection	175
GHAD	Wall diffuser, high induction, double deflection, with deflector	179
GHAJ	Wall diffuser, high induction, double deflection, with deflector and volume control damper	183
GHAV	Wall diffuser, high induction, double deflection, with volume control damper	187

REMARKS

1. For prices controls please refer to the separate price sheet.
2. If VAV terminals are ordered with controls, the maximum and minimum air volumes and other necessary calibration data must be provided together with the purchase order.
3. Ordering information: type-model-handing = NBOEOOB-100R-0000 (R=Right (standard) / L=Left handing).

Circular double wall pressure independent VAV air volume control terminals. These terminals are designed particularly for systems with space and installation restrictions and for the accurate measurement and control of air volumes courtesy of the patented air flow sensor type Flo-Cross®. With rectangular outlet and hot water reheat coil.

REMARKS

1. For prices controls please refer to the separate price sheet.
2. If VAV terminals are ordered with controls, the maximum and minimum air volumes and other necessary calibration data must be provided together with the purchase order.
3. Damper blades provided with neoprene gasket for fully shut of function **+20%**.
4. Ordering information: type-width-height = NKOA00B-0500-0350-S.

Rectangular single wall pressure independent VAV air volume control terminals. These terminals are designed particularly for systems with larger air volumes and duct sizes and for the accurate measurement and control of air volumes courtesy of the patented air flow sensor type Flo-Cross®. With sound attenuator.

TYPE DESIGNATION

N	K	O	F	O	O	B	0	5	0	0	0	4	0	0	S
TYPE						WIDTH (MM)				HEIGHT (MM)					

1 PRODUCT GROUP

N air volume and pressure control units

2 FUNCTION

K single wall, rectangular construction

3 NOT APPLICABLE

O not used

4 OUTLET

A rectangular outlet

F rectangular outlet, with integral sound attenuator

G rectangular outlet, with air straightener

N rectangular outlet, provision for electric reheat coil

R rectangular outlet, with integral sound attenuator and provision for electric reheat coil

5 NOT APPLICABLE

O not used

6 OPTIONAL

O unit suitable for both supply & return

R unit suitable for return only
(in combination with sound attenuator)

7 SENSOR

B Flo-Cross® air flow sensor (standard)

L fully shut-off version, with Flo-Cross® air flow sensor

VAV air volume control terminal, rectangular, single wall, sound attenuator

				
Article code	GTIN	Width (mm)	Height (mm)	Price p/p (€)

REMARKS

- 1. For prices controls please refer to the separate price sheet.
- 2. If VAV terminals are ordered with controls, the maximum and minimum air volumes and other necessary calibration data must be provided together with the purchase order.
- 3. Damper blades provided with neoprene gasket for fully shut of function+12%.
- 4. Ordering information: type-width-height = NKOF00B-0500-0350-S.

Rectangular double wall pressure independent VAV air volume control terminals. These terminals are designed particularly for systems with larger air volumes and duct sizes and for the accurate measurement and control of air volumes courtesy of the patented air flow sensor type Flo-Cross®.

PRODUCTSHEET >

TYPE DESIGNATION

N L O F O O B 0 5 0 0 0 4 0 0 S

TYPE WIDTH (MM) HEIGHT (MM)

1 PRODUCT GROUP

N air volume and pressure control units

2 FUNCTION

L double wall, rectangular construction

3 NOT APPLICABLE

O not used

4 OUTLET

A rectangular outlet
 F rectangular outlet, with integral sound attenuator
 G rectangular outlet, with air straightener
 N rectangular outlet, provision for electric reheat coil
 R rectangular outlet, with integral sound attenuator and provision for electric reheat coil

5 NOT APPLICABLE

O not used

6 OPTIONAL

O unit suitable for both supply & return
 R unit suitable for return only
 (in combination with sound attenuator)

7 SENSOR

B Flo-Cross® air flow sensor (standard)
 L fully shut-off version, with Flo-Cross® air flow sensor

REMARKS

1. For prices controls please refer to the separate price sheet.
2. If VAV terminals are ordered with controls, the maximum and minimum air volumes and other necessary calibration data must be provided together with the purchase order.
3. Damper blades provided with neoprene gasket for fully shut of function **+15%**.
4. Ordering information: type-width-height = NLOAOOB-0500-0350-S.

Rectangular double wall pressure independent VAV air volume control terminals. These terminals are designed particularly for systems with larger air volumes and duct sizes and for the accurate measurement and control of air volumes courtesy of the patented air flow sensor type Flo-Cross®. With sound attenuator.

TYPE DESIGNATION

N	L	O	F	O	O	B	0	5	0	0	0	4	0	0	S
TYPE						WIDTH (MM)				HEIGHT (MM)					

1 PRODUCT GROUP

N air volume and pressure control units

2 FUNCTION

L double wall, rectangular construction

3 NOT APPLICABLE

O not used

4 OUTLET

A rectangular outlet

F rectangular outlet, with integral sound attenuator

G rectangular outlet, with air straightener

N rectangular outlet, provision for electric reheat coil

R rectangular outlet, with integral sound attenuator and provision for electric reheat coil

5 NOT APPLICABLE

O not used

6 OPTIONAL

O unit suitable for both supply & return

R unit suitable for return only
(in combination with sound attenuator)

7 SENSOR

B Flo-Cross® air flow sensor (standard)

L fully shut-off version, with Flo-Cross® air flow sensor

VAV air volume control terminal, rectangular, double wall, sound attenuator

				
Article code	GTIN	Width (mm)	Height (mm)	Price p/p (€)

REMARKS

- 1. For prices controls please refer to the separate price sheet.
- 2. If VAV terminals are ordered with controls, the maximum and minimum air volumes and other necessary calibration data must be provided together with the purchase order.
- 3. Damper blades provided with neoprene gasket for fully shut of function+10%.
- 4. Ordering information: type-width-height = NLOFOOB-0500-0350-S.

Rectangular, single wall constant volume terminals with system powered mechanical regulator are designed to keep a constant air flow, independent of the inlet static pressure without the use of a DDC CAV/VAV controller/actuator.

REMARKS

1. The constant air volume (*Q in increments of 5 m³/h) must be provided together with the purchase order.
2. Stainless steel version available on request.
3. Ordering information: type-width/height = NMOAOVO-4040-Q*... (* according to the air volume range of this model).

Rectangular, double wall constant volume terminals with system powered mechanical regulator are designed to keep a constant air flow, independent of the inlet static pressure without the use of a DDC CAV/VAV controller/actuator.

VAV air volume control terminal, with integral sound attenuator, rectangular, hot water reheat coil

			
Article code	GTIN	Model	Price p/p (€)

REMARKS

- 1. Additional flange connection (30mm)-.....-FL: model 100/125 €30,- model 160/200 €33,- model 250 €36,- model 315/355/400 €42,-
- 2. For prices controls please refer to the separate price sheet.
- 3. If VAV terminals are ordered with controls, the maximum and minimum air volumes and other necessary calibration data must be provided together with the purchase order.
- 4. Ordering information: type-model-handing = NSOKBOB-100R-0000 (R=Right (standard) / L=Left handing).

VAV air volume control terminal, with integral sound attenuator, rectangular, provision for electric reheat coil

Rectangular pressure independent VAV air volume control terminals are designed particularly for systems with low noise criteria and for the accurate measurement and control of air volumes courtesy of the patented air flow sensor type Flo-Cross®. Rectangular outlet and provision for electric reheat coil.

REMARKS

1. For prices controls please refer to the separate price sheet.
2. If VAV terminals are ordered with controls, the maximum and minimum air volumes and other necessary calibration data must be provided together with the purchase order.
3. Each NZ terminal requires two separate control sets.
4. Ordering information: type-model-handing = NZOAOOB-0100-0000 (R=Right (standard) / L=Left handing).

The pressure independent dual duct units with integral mixing section provide a constant or variable air volume in dual duct systems. Flo-Cross® in cold or hot inlet and outlet.

REMARKS

1. For prices controls please refer to the separate price sheet.
2. Other sizes available upon request.
3. Ordering information:-width-height = AEROOOB-0450-0350.

The type AERG rectangular air flow measuring station is designed for the accurate measurement of air flow in air duct systems courtesy of the patented air flow sensor type Flo-Cross®. With air straightener.

REMARKS

1. Ordering information:-diameter-length = ABS1A00-0315-1200

The rectangular sound attenuator type ABW is suited for the reduction of noise caused by the AHU, or for the reduction of discharged noise caused by VAV and CAV terminals. Type ABW1-500 splitter width 100mm, length 500mm.

1 PRODUCT GROUP

A accessories

2 FUNCTION

B sound attenuators

3 CONSTRUCTION

W rectangular

4 VERSION

1 splitter width 100 mm

2 splitter width 200 mm

5 FLANGE CONNECTION / CONNECTION

C flange on both ends

6 NUMBER OF SPLITTERS

X number of splitters

7 NOT APPLICABLE

O not used

REMARKS

1. Sound attenuators larger than 1600x1800mm will be shipped in parts.
2. Width size is adjustable in increments of 50mm.
3. Other dimensions available on request.
4. Ordering information: ABW1C4O-8050-500=.....4 splitters (width 100mm)-size 800x500x500 (wxhxl).
5. Price seperate splitter on request, ABW1O1O (S=100mm/nr. of splitter 1) -1000 (height) -500 (length).

The rectangular sound attenuator type ABW is suited for the reduction of noise caused by the AHU, or for the reduction of discharged noise caused by VAV and CAV terminals. Type ABW1-1000 splitter width 100mm, length 1000mm.

REMARKS

1. Sound attenuators larger than 1600x1800mm will be shipped in parts.
2. Width size is adjustable in increments of 50mm.
3. Other dimensions available on request.
4. Ordering information: ABW1C4O-8050-1000=.....4 splitters (width 100mm)-size 800x500x1000 (wxhxl).
5. Price sepearte splitter on request, ABW1O1O (S=100mm/nr. of splitter 1) -1000 (height) -1000 (length).

The rectangular sound attenuator type ABW is suited for the reduction of noise caused by the AHU, or for the reduction of discharged noise caused by VAV and CAV terminals. Type ABW1-1500 splitter width 100mm, length 1500mm.

REMARKS

1. Sound attenuators larger than 1600x1800mm will be shipped in parts.
2. Width size is adjustable in increments of 50mm.
3. Other dimensions available on request.
4. Ordering information: ABW1C4O-8050-1500=.....4 splitters (width 100mm)-size 800x500x1500 (wxhxl).
5. Price separate splitter on request, ABW1O1O (S=100mm/nr. of splitter 1) -1000 (height) -1500 (length).

The rectangular sound attenuator type ABW is suited for the reduction of noise caused by the AHU, or for the reduction of discharged noise caused by VAV and CAV terminals. Type ABW2-500 splitter width 200mm, length 500mm.

REMARKS

1. Sound attenuators larger than 2400x1800mm will be shipped in parts.
2. Width size is adjustable in increments of 50mm.
3. Other dimensions available on request.
4. Ordering information: ABW2C2O-8050-500=.....2 splitters (width 200mm)-size 800x500x500 (wxhxl).
5. Price seperate splitter on request, ABW2O1O (S=200mm/nr. of splitter 1) -1000 (height) -500 (length).

The rectangular sound attenuator type ABW is suited for the reduction of noise caused by the AHU, or for the reduction of discharged noise caused by VAV and CAV terminals. Type ABW2-1000 splitter width 200mm, length 1000mm.

REMARKS

1. Sound attenuators larger than 2400x1800mm will be shipped in parts.
2. Width size is adjustable in increments of 50mm.
3. Other dimensions available on request.
4. Ordering information: ABW2C2O-8050-1500=.....2 splitters (width 200mm)-size 800x500x1500 (wxhxl).
5. Price seperate splitter on request, ABW2O1O (S=200mm/nr. of splitter 1) -1000 (height) -1500 (length).

Type GHA supply air grilles and registers are suitable for sidewall, sill or duct mounting. The unique high induction design results in the supply of cooled or heated air even with a large temperature difference in comparison to the average room temperature. The grille can also be used as a return grille.

REMARKS

1. Items with bold printed prices are available from stock.
2. For non standard finish a surcharge of €150,- net per colour and/or shipment is applicable.
3. For intermediate grille sizes: use price of next larger size **+20%** (for order ≥ 25 pcs).
4. Mounting hole size=grille size.
5. Add for screw holes €10,-.
6. Add for filter frame €16,-.
7. Ordering information:-width-height (mm) = GHAOOO4-0325-0125.

Type GHA supply air grilles and registers are suitable for sidewall, sill or duct mounting. The unique high induction design results in the supply of cooled or heated air even with a large temperature difference in comparison to the average room temperature. The grille can also be used as a return grille. With deflectrol (15°).

REMARKS

1. Deflectrol is supplied separately.
2. For non standard finish a surcharge of €150,- net per colour and/or shipment is applicable.
3. For intermediate grille sizes: use price of next larger size **+20%** (for order ≥ 25 pcs).
4. Mounting hole size=grille size.
5. Add for screw holes €10,-.
6. Add for filter frame €16,-.
7. Ordering information:-width-height (mm) = GHADOO4-0325-0125.

Type GHA supply air grilles and registers are suitable for sidewall, sill or duct mounting. The unique high induction design results in the supply of cooled or heated air even with a large temperature difference in comparison to the average room temperature. The grille can also be used as a return grille. With volume control damper and deflectrol (15°).

		9,0							984	984	984

Additional

N ... T ..	Thyristor 0 - 2 kW ; 230VAC-1ph	AX-MPR1-2	114
	Thyristor 2 - 4 kW ; 230VAC-1ph	AX-MPR1-4	166
N ... V ..	Thyristor 0 - 12 kW ; 400VAC-3ph	AX-MPR3-12	270
	Overheat cut-out 70°C manual reset	CLIXON-R27-7-HAND	28
	Pressure Switch (20...300Pa)	DS-205F	115
	Disconnect Switch	WRKSCH4P16A	60

Notes:

- The electric reheat coils, type 'slide-in' are ment for placement inside the CAV or VAV terminals.
For duct heaters we recommend you to use our NHON or NHOP.
- The above prices are including auto-reset high temperature (55° C) protection and
1, 2 or 3 relays (24 VAC - 3-pole 12A / 250V).
- Other configurations upon request.
- Ordering information: type - model - capacity = NOOOEEO - 315R - 2.0KW.
(R=Right (standard) / L = Left).
